

# JANET, JENNER & SUGGS, LLC

## TRIAL LAWYERS

### WHAT WE DO BEST

#### Birth Injuries and Cerebral Palsy

When a baby's delivery is unreasonably delayed despite warnings that indicate a lack of oxygen to the brain, life-altering cerebral palsy can develop. The firm's proven expertise in birth injury litigation makes the difference between obtaining full and partial justice.

#### Medical Malpractice and Hospital Errors

For over 30 years, their medical and legal team has been uncovering medical errors in cancer misdiagnosis, anesthesia, surgical and other malpractice cases. Many cases have involved medical errors that others missed. The firm is distinguished by their commitment to maximizing the value of their clients' cases.

#### Dangerous Medications and Medical Devices

Cases in this field of mass tort litigation have included menopausal hormone therapy, infusion pain pumps, Vioxx® and Baycol®, among others. The firm's expertise has resulted in being retained by two state governments to recover costs related to patients' use of unreasonably dangerous medications.

#### Toxic Environmental Hazards

This area of practice involves claims against corporations that pollute our land, air and water. With decades of experience in handling complex medical cases, the firm is better able to identify both current and future health problems. Presently, they are pursuing claims in New Jersey, Ohio and Nevada.

### THE VERDICT IS IN

Howard A. Janet, Robert K. Jenner, Dov Apfel and Stephen Offutt have once again been named as *Maryland Super Lawyers*®, and Giles Manley has been named as a *Maryland Rising Star*. Ken Suggs has been selected for inclusion in *South Carolina Super Lawyers*® since its inception. Their firm, Janet, Jenner & Suggs, LLC, has been named in the *U.S. News & World Report—Best Lawyers* inaugural list of America's Best Law Firms, Metropolitan First Tier.
